BAILEY CONSULTING Inc.

Meet the Bailey family ...

Family owned and operated, Miniature Golf Solutions by Bailey Consulting Inc. has over 25 years of experience in all phases of development and operations of some of the world's finest Mini Golf facilities. Owners David Bailey and son Matthew Bailey bring knowledge and expertise to every aspect of the project. This experience has proven very helpful in creating facilities that are fun and challenging, profitable and low maintenance.

It is our policy to provide full attention and focus to each customer by accepting only one project at a time!

Examples of our work can be seen throughout the United States, Canada, Mexico, China and Germany. These projects include a variety of work ranging from backyard waterfalls to elaborate miniature golf courses.

Project Overview

Based out of Ormond Beach, Florida, Miniature Golf Solutions by Bailey Consulting Inc. has been designing and building premier miniature golf courses for over 25 years. In addition to the design and construction aspect of miniature golf, owner David Bailey and son Matthew Bailey are also involved in all aspects of operations. This experience has proven very helpful in creating facilities that are fun and challenging, profitable and low maintenance.

1

Conceptual Design

With just a little bit of information on your dream miniature golf course, Miniature Golf Solutions will create a state-of-the-art color rendering of your new miniature golf course.

2

Site Visit

At client's request, a site visit can be very beneficial prior to creating a final design. This will give our design team a hands on feel for the lay of the land. Additionally, it is a great way for us to meet in person to discuss your project.

3

Final Design

After receiving feedback on the conceptual design, and any information gathered from the site visit, you will receive a final design packet containing a color rendering, as well as site details. This packet will also be very helpful in the permitting process.

4

Construction Budget and Contract

Once the final design is approved, we will send a price and proposal. Upon signing the contract we will lock you into the first available date you wish to start construction. Miniature Golf Solutions strives at keeping a very competitive price, and a consumer friendly contract. There is no fine print. What you see is what you get.

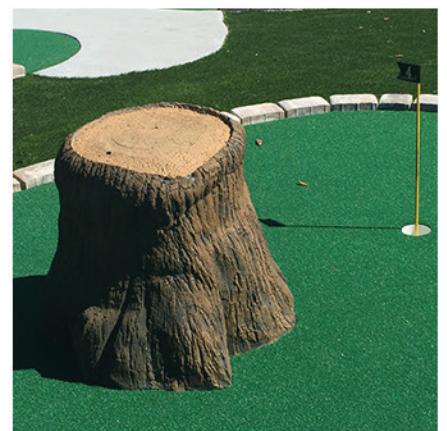

5

Course Construction

Owners David and/or Matthew Bailey are on site throughout construction, along with our highly skilled and professional team. We will stay on time and on budget. Our goal with every course we build is to go above and beyond for our client and always leave them satisfied.

Gallery

A close-up photograph of a miniature golf club head and a golf ball resting on a green, textured surface. The club head is silver with a black face and a black shaft. The golf ball is white with a dimpled texture. The background is a dark green, textured surface.
